

License Snapshot

| Created date | Updated date | Affects version | Fix version |
|--------------|--------------|---|-------------|
| 25 Mar 2024 | 25 Mar 2024 | Management Console - 5.18.0 (and newer) | N/A |

Description

Blanco Management Console 5.18.0 introduces a new health feature named "License Snapshot".

This feature compiles essential health data, including license balance and consumption history, transmitting it to our secure Blanco Cloud for effective account management. This information enables our sales account team to better cater to our customers' needs.

A secure, encrypted, snapshot of this data is uploaded to our cloud daily, with no collection of personal information.
