

Is it possible to re-run some of the diagnostics tests if they do not pass?

- It is possible to run diagnostics tests either one by one or all the specified tests using the Test Wizard.
- It is possible to re-run some of the tests if they fail. When the testing has been finished, the user goes to the Test Report view in the mobile application and selects 'Complete Test'.
- It is possible to stop tests at any point in the diagnostics mobile application by pressing the 'Stop' button.
- It is also possible to stop the tests at any point from Blancco Mobile Diagnostics and Erasure by pressing the 'Cancel' button. The diagnostics process can be started again from Blancco Mobile Diagnostics and Erasure after canceling.
