

Note on 3PAR 7xxx Series

If you are currently attempting to erase a 3PAR 7xxx series with Blancco Enterprise Array 2U, please note:

- A direct connection over Fibre Channel will not work in this model
- The connection will need to be established directly, utilizing the SAS HBA via a MiniSAS cable.
- Attach a MiniSAS Cable to the MiniSAS Port labeled DP1 (either Node0 or Node 1)
- The MiniSAS Port Labeled DP2 is for daisy chaining to the next enclosure
- Processor Enclosure (DPE) cannot be daisy chain

Disk Enclosure can be daisy chained up to 4 enclosures MiniSAS HBA port on the 2U
