

Blancco LUN Eraser for Unix / Drive Eraser for Mac version 2.8 has been released!

LUN Eraser for UNIX and Drive Eraser for Mac version 2.8 - Release notes

Features:

- **LEE-3876** - Added extra macOS Crypto Erase Verification.
 - This adds an extra verification for the macOS Crypto Erase standard.
- **LEE- 3870** - Switched to BDE License consumption on macOS.
 - Blancco Drive Eraser Enterprise Volume Edition licenses are now required for Mac erasure, please contact your account manager for license conversion.
- **LEE-3828** - Apple signed mac binary.
 - BDE on Mac is now Apple signed.
- **LEE- 3810** - Added custom field passing through command line.
 - Custom fields can now be set from the command line.
- **LEE-3782** - Support for macOS Monterey.
- **LEE-3386** - BMC credentials encryption in config file.
- **LEE-3780** - Added time sync command to erase.mac.
 - This guarantees that the erasure report time will be correct.
