

How to create a bootable USB drive using the Blancco USB Creator Tool

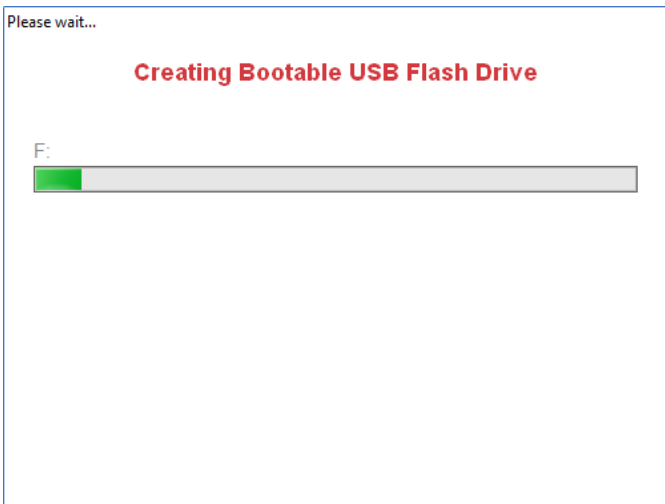

1. Run the Blancco USB Creator Tool as an Administrator.
2. Plug in a USB drive.
3. Select your USB drive from the "Media" drop-down list.

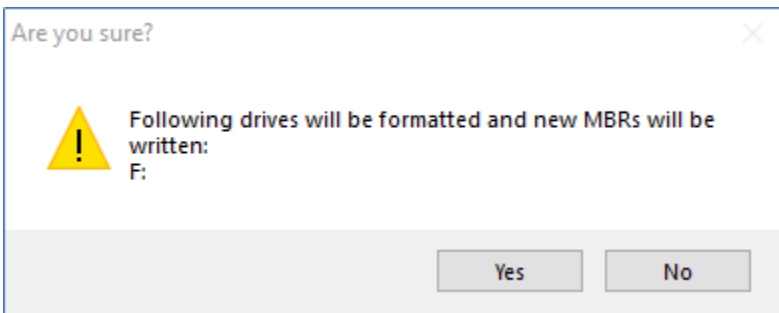

4. Click "Add" and navigate to your Blancco ISO file.

5. Click "Create" to make your bootable USB.

NOTE: If "Format" is selected you will receive the following warning message. Click "Yes" to continue.

6. Once completed click "Done".
