

Blancco Drive Eraser for Mac version 2.6 has been released!

Drive Eraser for Mac 2.6 - Release notes

- Added support for M1 devices.
 - Apple M1 devices required architectural changes, please refer to the user manual for more details.
- Added full support for macOS Big Sur.
- Added an Asset Report feature.
 - This allows the creation of hardware reports prior to the erasure, this requires an Asset Profiler license.

Bug fixes:

- **LEE-2737** - Fixed occasional report UUID collisions.
