

How to create a scheduled erasure tasks for Blancco File Eraser for Windows

Created date	Updated date	Affects version	Fix version
15 Sep 2023	15 Sep 2023	File Eraser - Data Center Edition File Eraser - Enterprise Edition	N/A

Description

It is possible for Blancco File Eraser to execute a scheduled erasures based on an trigger or an event (such as date, system startup, user logon).

For example, user can create a scheduled task to erase the content of recycle bin when the system is started. After creating such task, every time the computer is started the content of the Recycle bin will get erased.

As Windows Task Scheduler is being utilized to enable the scheduled/customized erasure, the erasure can be triggered based on multiple different conditions based on your requirements. A simplified example is provided below which allows automated erasure for the contents of the Documents folder for files older than 30 days.

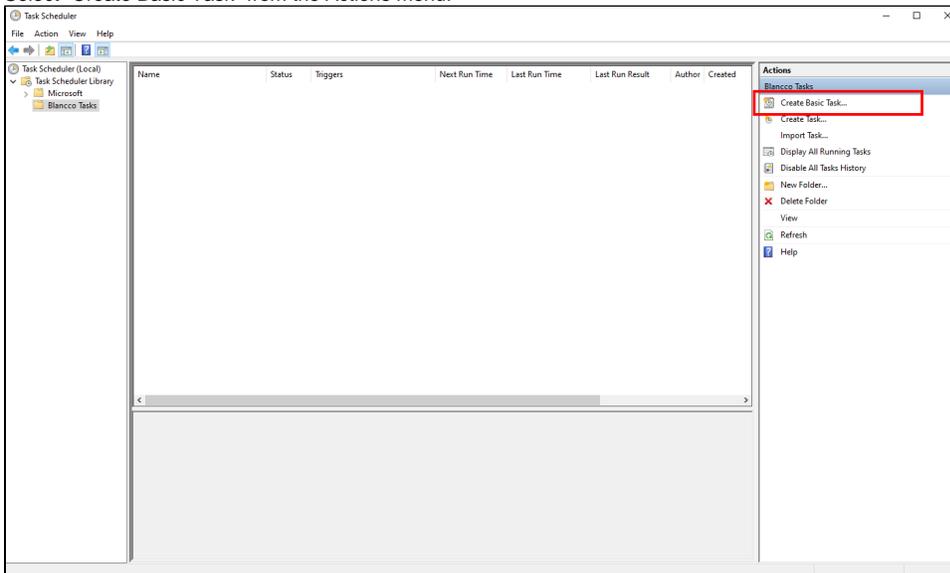

Blancco File Eraser user manual should be referenced to see all the available erasure options when creating scheduled tasks.

Step by step instructions

Note! When using the Windows Task Scheduling it is important to choose or create an user account that has full user rights to the files that will be selected for erasure.

Follow the below steps to create a customized erasure tasks using Windows Task Scheduler:

1. Open Task Scheduler and select.
2. Select "Create Basic Task" from the Actions menu.

3. Enter a name and description for the erasure task.

Create Basic Task Wizard

Create a Basic Task

Use this wizard to quickly schedule a common task. For more advanced options or settings such as multiple task actions or triggers, use the Create Task command in the Actions pane.

Trigger	
Action	Name: Documents folder erasure
Finish	Description: Blancco File Eraser task to erase specified content within the Documents folder

< Back Next > Cancel

4. Specify the trigger when the erasure should be run, in this example "Weekly" is being selected and the task is configured to be run every Friday at noon.
