

Blanco Management Console version 4.0.2 has been released!

Management Console – 4.0.2 Release Notes

Bug fixes:

- Fix for an issue where BMC would not start when upgrading to version 4.0.0 from versions prior to 3.8.0 on a Linux platform.
- Fix for an issue where BMC report logs would contain an incorrect product ID for Management Console.
- Fix for an issue where custom views could be unintentionally removed while being edited on systems updated to 4.0.0.
- Fix for an issue where report statistics were not fetched in the Statistics View in reporting. This occurred on PostgreSQL and embedded database installations.
