

# Blancco Management Console version 4.3 has been released!

Management Console 4.3 - Release notes

## Highlighted features:

- Two-way communication with Mobile Device Eraser.
  - As part of Blancco Mobile Device Eraser remote workflow, an asset management system can be integrated to the workflow.
  - Giving unprecedented dynamic flexibility for process control and optimization.
  - The same functionality already exists for Blancco Drive Eraser.
- Entitlements Creation as Normal User A new authority is available in Blancco Cloud: AUTH\_LICENSE\_EMS.
  - The new authority is for our new EMS license system.
- Embedded barcodes in report PDFs.
  - Possible to export report PDFs with embedded barcodes which contain serial number information.
- Import Reports API.
  - Public API endpoint to import reports.
- Fast login.
  - The user authentication is now much faster. This mostly noticed when using our APIs where the response time will be much improved.
- Root admin is never disabled.
  - Root admin is never disabled due to failed logins.
