Blancco Management Console version 4.4 has been released!

Management Console 4.4 - Release notes

- BI Dashboard.
    - A new Business Intelligence Dashboard have been added.
    - You can here easily follow productivity and break the data down per user or group.
    - The work will continue to next release, providing even more detailed information about productivity.
- Move user and group.
    - Move a user or group in the user hierarchy. No longer need to remove user and create a new user.
- Embedded barcodes in report.
    - Possible choice to export report PDFs with embedded barcodes through UI or API.
- Software delivery.
    - New section is added in MC where user can find download links to bought software.
    - The user needs to have authority to see this section so administrator can easily hide it if needed.
- User search.
    - Fastly find a user in a user hierarchy with an easy search.
- CSV export enhancement.
    - Sub record related to disks and erasure maintains a logical order in report views and CSV exports.
