

How to create a bootable USB drive using the Blanco USB Creator Tool

1. Run the Blanco USB Creator Tool as an Administrator.
2. Plug in a USB drive.
3. Select your USB drive from the "Media" drop-down list.

4. Click "Add" and navigate to your Blanco ISO file.
5. Click "Create" to make your bootable USB.

NOTE: If "Format" is selected you will receive the following warning message. Click "Yes" to continue.

6. Once completed click "Done".
