Blancco Removable Media Eraser version 2.3 has been released!

Removable Media Eraser 2.3 - Release notes

- USB Hard drive support.
  - Increasing support to not just include USB sticks but also USB hard drives.
- Scalable UI.
  - The window size can now be changed to better use the whole size of the screen.
  - The program will remember the size of window and columns user wants to next start of the software.
- Auto start.
  - Erasure can be started automatically when a removable media is inserted into the computer.
  - Designed to be used when you have a dedicated erasure station for removable medias.
- Better stability.
  - Specially when erasing a lot of drives at the same time.
- Hide Drive.
  - Easier to hide drive by using registry values.
  - Hide a drive to make sure it will not be erased by mistake.
- Command line.
  - Minor improvements in print outs and usage.
