

Blancco USB Creator version 3.2.0 has been released!

USB Creator 3.2 - Release notes

Features:

- **LEE-1356** - Support for UEFI Secure Boot.
- **LEE-1150** - User interface scaling.

Fixes:

- **LEE-1120** - Fixed an issue where changing menu entry name does not work intuitively.
- **LEE-1141** - Fixed an issue where checkbox and text is drawn on top of disabled timeout input.
- **LEE-1145** - Fixed an issue where connecting memory card while application is running doesn't update media list.
- **LEE-1173** - Fix for an issue where MacBook Pro 11,4 cannot be booted with Drive Eraser 6.1.2 USB created with USB Creator 3.0.0.
- **LEE-1375** - Fix for an issue where loading same image multiple times will cause duplicates in boot menu.
- **LEE-1593** - Fix for an issue where using images with same name from different folder will cause error while copying images to USB.
- **LEE-1603** - Fix for an issue where wrong version number is shown in GRUB.
