

# Blancco USB Creator version 3.0 has been released!

## USB Creator 3.0 - Release notes

- New User Interface.
  - Blancco USB Creator now have the same branding as the rest of the products.
- Better use of USB capacity.
  - The older version resized the USB stick to fit the selected ISO.
  - The resizing did not leave any room for storing reports or issue reports. We now better use the space on the drive.
- Support for large USB-sticks.
  - USB sticks over 32 GB are now supported.
- Improved error handling.
  - Software can handle more situations or will inform the user in a more user-friendly way.
- Hardware support.
  - More computers should now be supported.
