Blancco LUN Eraser (for UNIX) version 2.2 has been released!

LUN Eraser for UNIX 2.2 - Release notes

- Implemented Faster NIST verification.

    - Faster erasure with NIST (up to 45% faster).
- Unified Erasure Algorithm with Blancco Drive Eraser.

    - Adds consistency across Blancco products and in Blancco Management Console.
- All.xml will be generated in target report path.

    - All.xml was always generated in the current directory.
- Erasure Speed limit not always correct.
- Success message printed too many times with -simplegui.
- Replaced the term "log" with "report".
- Progress bar not accurate with verification set to lower than 100%.
- Erasure speed is printed as "-nan" in case of non-existing target.
- Timezone was not consistently printed in all report sections.
