

Blanco Management Console version 4.9.0 has been released!

This [is](#) a Blanco Cloud update release only and no standalone version is available for this version!

Features:

- **MC-5085** - Elasticsearch driven report search.
 - Elasticsearch integration aims to enhance Management Console's scalability by moving report searching functionality on top of Elasticsearch platform.

Bug fixes:

- **MC-5692** - Importing of some 4.x report failure.
 - Old 4.x reports failed when importing to MC 4.8.1
