

Blancco LUN Eraser (for UNIX) version 2.4 has been released!

LUN Eraser (for UNIX) version 2.4 - Release notes

Features:

- System Information reporting on Mac.
 - Includes system serial, manufacturer, model and others.
- CPU information reporting on Mac.
 - Includes model, vendor, cores, frequency and others.
- Battery information reporting on Mac.
 - Includes design capacity, current capacity, model, serial and others.
- Erasure process on macOS now supports a regular USB installation.
 - The requirement for an external USB drive is reduced to a regular USB stick.

Bug fixes:

- **LEE-1936** - Disk id information cannot be retrieved in macOS Recovery mode.
 - Warning: although erasure should now be possible through recovery mode this is still an experimental feature until further notice.
