Virtual Machine Eraser

Blancco Virtual Machine Eraser allows organizations to automatically destroy all data when virtual machines are no longer needed. With highly flexible deployment options, organizations can choose between wiping data from standalone and target-specific virtual machines with command lines on the hypervisor layer. Blancco Virtual Machine Eraser supports the greatest number of hypervisors across VMware ESXi, Microsoft Hyper-V, Oracle Virtual Box and virtual hard disk formatted for VMDK, VHDX, VDI and OVF.
