Blancco Management Console version 5.2.0 has been released!

Management Console 5.2 - Release notes

- **MC-5806** - Azure Authentication Support in Integrations.
  - Allows configuring external integration calls to include Azure authentication information.
  - Supports communication between BMC and AMS in Azure.
- **MC-5871** - SAML/SSO.
  - User authentication process is delegated to identity provider and allows managing users/groups centrally.
- **MC-6031** - Support for case-insensitive user login.
- **MC-5986** - Use AD sync with different UPN.
  - User authentication with AD is not anymore restricted by domain and username to UPN.
  - Customer’s can now configure Root DN freely and users' email addresses are treated as UPNs.
- **MC-6043** - Introduced two new license IDs for Blancco Mobile Diagnostics and Erasure.
  - BMDE will add two new licenses for new features:
    - FMIP Check
    - Carrier ID
