

What is the recommended erasure process for iPad mini 3?

iPad mini 3 is fully supported with iOS 10.0.0 onwards.

The erasure process for iOS 9.x and earlier, by using overwriting without firmware update:

- Go to Settings > iOS and select "Skip 'Apple iOS erasure' if not supported for the device"
- Select the overwriting standard you wish to use in the drop-down box below this
- Run factory reset for the device manually, either from device settings or with iTunes. Please refer to manufacturer documentation: <https://support.apple.com/en-us/HT201252>
- When the device is in 'Hello' screen, it is ready to be erased with Blancco Mobile Eraser.
