- **PHEN-4348** - Blancco Support Reporting - fylgja crashing on customer.
- **PHEN-4465** - Blancco 4.1 UAT testing.

Known Issues:

- Users may need to disconnect and reconnect Huawei and Nokia devices in order to get the software to recognize the device and begin processing.
- For non-Samsung Android devices, if the UI asks for the user to enable USB debugging mode erasure will be allowed to begin but will fail until after the device is put into this mode.
