Blancco Removable Media Eraser 2.5.0 is now released!

Removable Media Eraser 2.5.0 - Release notes

Highlighted features:

- Support for at least 24 simultaneous erasures.
  - Multiple detection and UI speed optimizations.
- Added Polish and Hungarian translation.
- **LEE-1152** - LDK HASP support.
  - Legacy HASP is still supported for the time being.
- New state of the art digital signature for reports for added security.
  - Due to the introduction of this new signature, BMC 4.8 or greater is required.
- Display verification percentage on erasure report.
- Added new device state "preparing" for better status tracking.

Bug Fixes:

- **LEE-2037** - Missing capacity unit from "Size" column.
- **LEE-2209** - Report verification fails if report contains non-ASCII characters.
- **LEE-2263** - Non-ASCII characters not displayed properly on the UI.
