

Blancco LUN Eraser (for UNIX) / Drive Eraser for Mac version 2.5 has been released!

LUN Eraser for UNIX 2.5 / Drive Eraser for Mac 2.5 - Release notes

Features:

- macOS Catalina full support.
 - Updated erasure script, the binary was already supported on Catalina.
- macOS recovery mode support.
 - Eliminate the need for external USB booting.
- Renamed the macOS version to "Drive Eraser for Mac".
- Added MDM and DEP lock detection.
 - The information will be automatically detected and logged in the report.
- **LEE-2191** - Screensaver will be automatically disabled during erasure on Mac.
- **LEE-2262** - Added a command line option for BMC username and password.
- **LEE-2392** - Added business name and business location special fields on the report.

Bug fixes:

- **LEE-2451** - Support of disk size greater than 2GB on 32 bit builds.
- Registry values. The confidential values in the registry created by the software are now encrypted by default.
