Blancco PreInstall 2.8.0 is now released!

Preinstall 2.8.0 - Release notes

Features:

- Asset Report creation option.
  - A full asset report can be created utilizing Asset Profiler licenses from Preinstall.
- Support for Windows updates.
  - Windows updates in between Preinstall executions will not remove the boot entry.

Fixes:

- Boot issues on certain Windows 10 builds.
  - Fixed a rare but recurring issue on certain builds of Windows 10 that were preventing booting.
- **LEE-2434** - Network settings not written into image.
  - Fixed an issue where the network settings from the registry are not saved into the ISO.
