

Blancco LUN Eraser (for Windows) version 2.4.1 has been released!

LUN Eraser (for Windows) version 2.4.1 - Release notes

Important: Due to a new report digital signature, the Blancco LUN Eraser (for Windows) releases version 2.4 and higher are not compatible with the Blancco Management Console 4.7.1 or lower (report importing and sending will fail consistently).

- If you are using a local BMC and want to use Blancco LUN Eraser (for Windows) version 2.4 or higher, please upgrade first to BMC 4.8.0 or higher.
- If you are using the Blancco Cloud, it is fully compatible with Blancco LUN Eraser (for Windows) version 2.4 and higher.
- The BMC 4.8.0 and higher are fully compatible with all Blancco LUN Eraser releases (< 2.4 and >= 2.4).

Features:

- Added a new launch script.
 - Added an easy configuration and launch script for deployments on WinPE helpful for remote erasures.
- Added an installation-free package.
 - This package can be deployed without the need for installation to ease remote erasure.
- Added a registry option to turn on or off TLS validation.
