

# Download: Blancco HASP Tool

Blancco HASP Tool is a standalone Windows software that can be used for viewing local HASP key license information and for activating new HASP license codes (.hsp files).

1. Connect a Blancco HASP key to a computer's USB port.
2. Wait for the computer to install the drivers for the HASP key (the red light should stop blinking after the drivers are installed).
3. Download [the Blancco HASP Tool software](#).
4. Unzip the package and run the software ("Run as Admin...").
5. Read [the user manual](#) for more detailed instructions.
