

Blanco Management Console version 5.3.2 has been released!

Management Console 5.3.2 - Release notes

Features

- **MC-6258** - Report Field widget improvements.
 - Report Field pie chart applies colors to segment in more sophisticated manner.
 - Widget's filter button does not disappear with small screen sizes.

Bug fixes

- **MC-6257** - When using Elasticsearch-reporting accompanied by continuous exports, it is possible to get BMC threads in a deadlock (caused by ActiveMQ running out of memory).
 - This in turn will lead to all DB connections becoming active (but idle).
 - End result is whole service becoming unresponsive.
 - The issue has been fixed and threads cannot end up into a deadlock anymore.
- **SHARED-362** - PDFs Misaligned text in PDF reports.

Known Issues

- **MC-6288** - Report field text may overflow with UTF characters without spaces in exported PDFs.
