Blancco Management Console version 5.11.1 has been released!

Management Console 5.11.1 - Release notes

Bua fixes

- MC-6834 Log4Shell vulnerability fix.
 - Standalone MC would be prone to attack when connected to the Internet. Hence, MC versions < than 5.11.1 would all need an upgrade to MC 5.11.1 which has Apache Log4J2 libraries updated.
 - More details can be found from CVE-2021-44228 Critical vulnerability in Apache Log4j library

Known issues:

- MC-6805 Occasional "MC connection error: Internal Server Error" on Drive Eraser side when starting remote workflow from MC.
 - The bug manifests when:
 - Session reuse is in use.
 - Remote workflow is launched.
 - BDE session restarts before MC sends the workflow to BDE.
- MC-6821 "Test connection" for email configuration fails when using secondary admin.
- MC-6816 Workflow status column filter does not display any data.
