

Blancco LUN Eraser (for Windows) version 2.5.0 has been released!

LUN Eraser for Windows 2.5.0 - Release notes

Highlighted features:

- Added support for Windows 11.
- Use Blancco Management Console date and time if available.
- Added a license file.
 - This is especially useful for extending time based installations or custom builds.
- Added ARM build support.
 - This is available upon special request.

Bug fixes:

- **LEE-3241** - Freezing issue when erasing 32TB+ volume.
- **LEE-2292** - Strange system manufacture names in hardware report.
- **LEE-3340** - Time limited version report sending won't give an error if MC settings are incomplete.
