

Blancco File Eraser

Created date	Updated date	Affects version	Fix version
23 Mar 2023	24 Mar 2023	Blancco File Eraser	N/A

Description

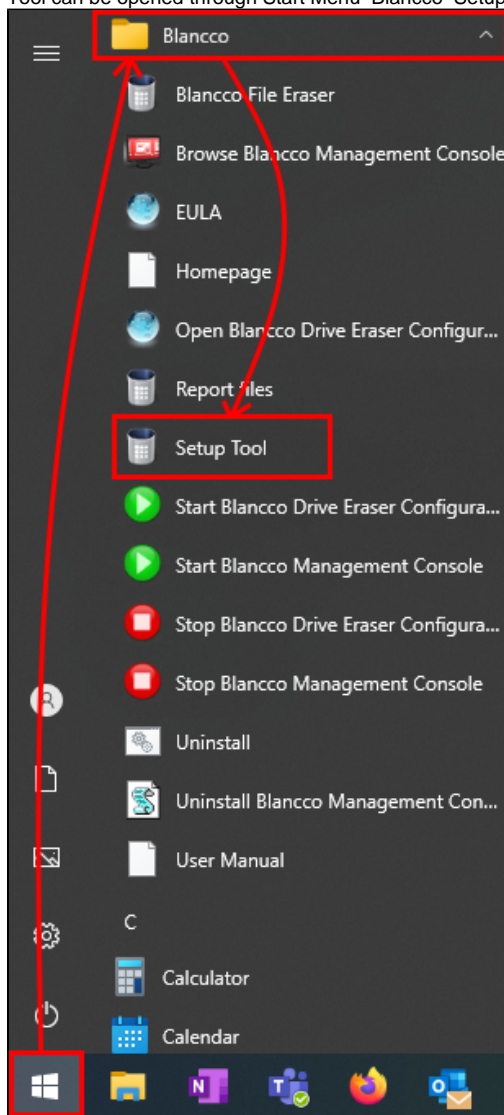

This page will provide step by step instructions on how to update communication settings for Blancco File Eraser.

Valid communication settings are required for report sending and may be required for license consumption as well.

Step by step instructions

This chapter contains instructions how to update the existing configuration with Blancco Management Portal details to allow future license consumption and report sending to Management Portal.

1. Run "Setup Tool"
 - a. Tool can be opened through Start Menu Blancco Setup Tool.

- b. Depending on your File Eraser version, Setup Tool may be opened through Command Prompt by running below command. Note that if you are not using default installation directory you will need to update the command to reflect the appropriate installation path.

```
"C:\Program Files\Blancco\Blancco File Eraser - Data Center Edition\BlanccoFileEraser.exe" /setup
```

2. Navigate to "Configuration" tab

3. Update "Server address" with your Management Portal erasure client endpoint followed by colon and the port. Note that for File Eraser the "https://" prefix is required.

Erasure client endpoint is region specific, to find out your endpoint follow the steps provided here: [How to confirm your Blancco Management Portal erasure client endpoint details?](#)

The screenshot shows a web form titled "Management Console Settings". It contains three input fields on the left and two buttons on the right. The "Server address" field contains the text "ps://classic.eu-west-1.blancco.cloud". The "User name" field contains the text "support@blancco.com". The "Password" field is filled with a series of dots. The "Test connection" button is positioned to the right of the "Server address" and "User name" fields. The "Test licenses" button is positioned to the right of the "Password" field.

Management Console Settings		
Server address:	<input type="text" value="ps://classic.eu-west-1.blancco.cloud"/>	Test connection
User name:	<input type="text" value="support@blancco.com"/>	
Password:	<input type="password" value="....."/>	Test licenses

4. Update your "User name" and "Password" with your new Management Portal credentials.
5. Click "Save"
